Philosophy of The Third Eyes

The Brand Name The “THIRD EYES”, means perceived a dimension within yourself which is beyond the physical, and all the compulsions of the physical dropped away.

When we refer to the brand name The “THIRD EYES” we are symbolically talking about seeing something that the two sensory eyes cannot see. Our sensory eyes are outward-oriented. The Third Eyes is to see your interiority - the nature of yourself, your feelings and your existence. The dimension of perception through which one can perceive that which is beyond the physical is referred to as The “THIRD EYES”
